SUBJECT: USDA Announces Amendment to Class I Skim Milk Price Formula

On March 8, 2019 the U.S. Department of Agriculture (USDA) announced an amendment to the Class I skim milk price formula under the Federal Milk Marketing Order (FMMO) program, in accordance with the Agriculture Improvement Act of 2018 (2018 Farm Bill). The change is effective May 1, 2019. The rule will become effective May 1. The new price formula will be reflected in the May Advanced Class I Skim Milk Price that will be announced on April 17, 2019

Currently, the Class I skim milk price is calculated using the higher of the monthly advanced pricing factors for Class III or Class IV skim milk, which reflect dairy product survey prices for the two weeks prior to the price announcement, **plus** the applicable adjusted Class I differential. Because market prices for these surveyed products fluctuate, the “higher of” factor used to determine the Class I skim milk price can change, increasing risk and uncertainty associated with hedging.

To address this issue, Congress determined that the formula for the FMMO Class I skim milk price should be the average of the monthly Class III and Class IV advanced pricing factors **plus** \$0.74 per hundredweight **plus** the applicable adjusted Class I differential.

In accordance with the 2018 Farm Bill, the amendment is effective indefinitely, until further modified, and may not be modified sooner than two years after the effective date of this rule.
